

PERMAGARD®
AUTOMOTIVE

LOVE THAT NEW CAR FEELING

Safely eliminate bacteria, viruses, mould and odours

SANITISE • SHIELD • PROTECT

A must-have for today's motorist

Permagard Antimicrobial Shield is perfect for freshening up your pre-owned car, and a must-have addition to your car's annual service.

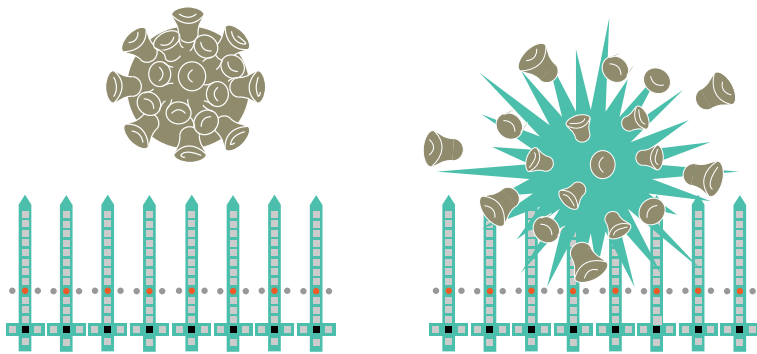

Researchers at Queen Mary University in London recently found that **steering wheels carry more bacteria than public toilets**. A public toilet is home to 80 bacteria for every square inch and a half. But 700 harmful bugs live in the same area on a steering wheel, gear stick and back seat". — DAILY MIRROR UK 2014

How does it work?

Permagard's Antimicrobial Shield once applied, forms an invisible barrier on all the surfaces of the interior of your vehicle and its air-conditioning system, immediately sanitising and eliminating harmful microbes and bacteria present.

Permagard Antimicrobial shield is non-toxic and kills by 'mechanical' means - a layer of microscopic pins coat the surface and kill the pathogen by piercing and rupturing the cell wall. By killing germs in this method (rather than by alcohol or poison), it prevents even the latest superbugs from surviving as they are also defenseless against our cell wall rupture technology.

The antimicrobial barrier is like a grass lawn with countless blades of grass that rupture or pop the bubble-like cell wall of the microbes, destroying them on contact.

Advanced sanitation technology protecting you and your family all year round.

- Eliminates second hand odours
- Stops mould and mildew build up
- Hypo-allergenic
- Invisible and non-staining
- Air conditioning system decontaminant
- Long term protection

Perfect for young families, sensitive noses, pet-lovers, and germ conscious drivers

- ✓ FRAGRANCE FREE
- ✓ CHLORINE FREE
- ✓ COLOURANT FREE
